CST Industries Announces Launch of CST Covers

Lenexa, KS (August 22, 2011) - [CST Industries, Inc.](http://www.cstindustries.com), the global leader in the manufacture and construction of factory coated metal storage tanks, aluminum domes, specialty covers and reclaimer systems, is pleased to announce the renaming of their aluminum cover and structure division, TemcorConservatek, to CST Covers.

“The integration of the strong organizations behind the Temcor and Conservatek brands has resulted in a new company with a focused direction to provide our customers with the best aluminum structures in the industry” commented Joe Kerner, President of CST Covers. “The launch of CST Covers alongside the previous renaming of our tank storage division to CST Storage, creates a clean and clear organizational structure for CST Industries that our customers worldwide can understand” said Declan McLaughlin, CEO of CST Industries, Inc.

CST Covers (www.cstcovers.com) was created by combining the world’s two leading aluminum cover companies, Temcor and Conservatek Industries. CST Covers is the worldwide leader in the design, manufacture and construction of custom aluminum covers and structures for architectural, environmental and industrial applications. CST Covers has supplied over 15,000 covers in more than 90 different countries and offers multiple structural, high strength aluminum design solutions including domes, vaults, extruded flat covers, formed plank covers, truss supported covers, space frames as well as custom products specifically designed for customers unique vertical and overhead applications. The company maintains operations in Gardena, CA, Conroe, TX and Rincon, GA. The company is headquartered out of the Conroe, TX location.

CST Industries, Inc., (www.cstindustries.com) is the complete storage system provider for engineering and manufacturing professionals in thousands of different industries and applications throughout the world. The company is the global leader in the manufacture and erection of factory coated metal storage tanks, aluminum domes and specialty covers. CST’s existing company portfolio consists of CST Storage, CST Covers, Weaver Reclaimer Systems and Vulcan Tanks. Manufacturing facilities and technical design centers are located in Parsons, KS; Winchester, TN; DeKalb, IL; Conroe, TX; Gardena, CA; Rincon, GA and the United Kingdom. Regional sales offices are located throughout North America and in Mexico, Argentina, United Kingdom, India, Singapore, Vietnam and Dubai. Currently more than 275,000 CST tanks and covers have been installed in 125 countries throughout the world.
